

INSTRUCTIONS

- Create a definition statement / question for your DAP Capstone example:
  - I want to build a data analysis that answers the following question about (insert some or other subject here): My question is this ...(insert your question here ...).
- Write a Definition of the Audience / type of personas that might be interested in this analysis
- What datasets do I need to help me answer the above question for my particular audience? (1000 cells min)
- Choose any publicly Internet-available dataset(s)
- What research do I need to do to find data sources for my Capstone?
- List resources researched: (links to websites / materials)
- Note what you like about each resource and why you chose it
- Name other reference sources you want to consult

What question is your data going to solve?

I want to build a Data Analysis that answers the following question about social media and mental health.

How has social media affected mental health in youth adults in the US?

Audience

Parents

Doctors

Med School/Institutions

Primary Schools

What datasets do I need?

Suicide Rate

Overdose Rate

Rate of therapy/psych visits

Diagnosed conditions

Prescribed Medication

List out your datasets here:

Kaggle

Google Dataset

SAMSHA

NCHS Data Brief

What do you like about each resource and why did you choose it?

API Data

Yearly Filter

Clean Data

Pain points and frustrations
